**SKU:** CAT5E-CROSS

<b>Product types:</b> CAT5E-CROSS-2M	CAT5E FTP Cross Over - 2m
CAT5E-CROSS-5M	CAT5E FTP Cross Over - 5m
CAT5E-CROSS-10M	CAT5E FTP Cross Over - 10m

- Description:**
- CAT5e FTP Cable with moulded connectors
  - Foil twisted pair (FTP) shielded network cable to reduce interference
  - Suitable direct network connections
  - RJ45 network plug each end
  - Color: Light grey

**Notes:**

Crossover cables should only be used for direct network connections. Attempting to connect a computer to an old router or network switch with a crossover cable instead of a normal cable, can prevent the link from functioning.

These cables can be specially purchased through various electronics outlets.

A straight-through cable can be relatively quickly converted into a crossover cable by removing the connector and reattaching the wires with the appropriate transmit and receive wires crossed.
